

Product Data Sheet

High Tensile Polypropylene Strapping Tape - 60 Yd (51010)

Polypropylene Strapping Tape is a high tensile polypropylene strapping tape coated with a synthetic rubber based adhesive system. Has an excellent flexibility and make an attractive alternative to filament tapes for palletizing, bundling, and reinforcement of various cardboard handles(e.g. flat and top hole handles), has low elongation increase holding power offering maximum strength for keeping loads intact. Can be easily converted or die-cut. Metal-like coloring emphasizes product durability.

Applications

Reinforcement of shipping cartons as well as bundling and strapping of heavy goods and securing pallets, which are exposed to shocks during transport. Has an excellent flexibility and makes an attractive alternative to filament tape for palletizing, bundling, and reinforcement of various cardboard handles (e.g. flat and top hole handles). Low elongation increases holding power, offering maximum strength for keeping loads intact. Can be easily converted or die-cut. Metal-like coloring emphasizes product durability. Great for reinforcement of shipping cartons as well as bundling and strapping of heavy goods and securing pallets, which are exposed to shocks during transport.

Physical Properties

- 3" Core
- Color: Metal Gray

NOTE: Tensile strength is based on typical test results obtained from a series of laboratory tests and should be used as a guide only. For more detailed information, please refer to the product writing specifications. Before using this product, user shall determine the suitability of the product for the intended application. All rights reserved. All trademarks are the property of their respective owners. All test results are based on ASTM and PSTC methods.

- Adhesive: Synthetic Rubber
- Total Thickness: 5.10 mm (0.201 in)
- Adhesive Thickness: 0.64 mm (0.025 in)
- Tensile Strength: 228 lb./inch

- Elongation: 20% at break

Alternative to: Tesa #51010

Also known as: High Tensile Polypropylene Tape, High Tensile Strength Polypropylene Tape, Strapping Tape

NOTE: The physical properties listed above are typical test results obtained from a series of laboratory tests and should not be used for the purpose of writing specifications. Before using this product, user shall determine the suitability of the product for his/her use; and user assumes all risks and liabilities in connection therewith. All test procedures used are in accordance with ASTM and PSTC methods.
